Internship as Venture Analyst

Siemens Technology Accelerator GmbH (STA) is a 100% affiliate of Siemens AG. We support the external commercialization of technologies that were developed within Siemens through spin-off, selling or licensing.

We are constantly in search of committed and highly qualified students that will, together with a venture manager, promote commercialization projects and support the founders that have a predominantly technical background. We offer you a challenging and exciting position that enables you to gather hands-on experience in the incubation process of new businesses.

Your tasks:

- Evaluation and commercialization of new technologies together with venture managers
- Independent market and competitor analysis and technology comparison
- Development of business models and creation of business plans
- Organizing and conducting expert interviews and customer talks

Our requirements:

- Major in technology or economics
- Completed intermediate diploma (pre-degree)
- Proficiency in English. Basic knowledge in German will be welcomed
- First work experience
- Open-minded and interested in innovation and entrepreneurship

Please send your resume per e-mail including an indication of when you would be available for an internship. You can find more information on our web site www.sta.siemens.com. If you have any further questions do not hesitate to contact us.
